

Ready, Set, Create

PEELABLE POLISH

Activity Time 5 Minutes

Wait Time 10 Minutes

Ages: 3+

Supplies

1 tbsp Elmer's White School Glue

2-3 drops of AP
approved acrylic paint

Small paint brush

Reusable plate or
painter's palette

Stir stick

Measuring spoons

Instructions

1. In a reusable plate or painter's palette, pour out 1 tbsp of Elmer's White Glue and add 2-3 drops of acrylic paint.
2. Use the stir stick to mix the two ingredients. Stir until they are one cohesive polish.
3. Use a small brush to dip into the polish; then use the brush to paint onto your fingernails. Apply a thin layer that coats your nail evenly.
4. Repeat Step 3 until you have reached your desired color vibrancy, one thin layer at a time. Wait 10 minutes for drying between coats.
5. When final coat is finished, show off your nails!
6. Peel, redesign, and paint them again as many times as you wish. Be sure to wash your hands once polish is removed.
