Apple Intelligence: Apple Intelligence will be available in beta on all iPhone 16 models, iPhone 15 Pro, and iPhone 15 Pro Max, with Siri and device language set to U.S. English, as an iOS 18 update in fall 2024. Some features and additional languages will be coming over the course of the next year.

Display Size: The display has rounded corners that follow a beautiful curved design, and these corners are within a standard rectangle. When measured as a standard rectangular shape, the screen is 6.12 inches (iPhone 16), 6.69 inches (iPhone 16 Plus), 6.27 inches (iPhone 16 Pro), or 6.86 inches (iPhone 16 Pro Max) diagonally. Actual viewable area is less.

Power and Battery: Battery life varies by use and configuration. See [apple.com/batteries](https://apple.com/batteries) for more information.

Roadside Assistance, Emergency SOS, and Messages via Satellite: Service is included for free for two years with the activation of any iPhone 14 or later model. Connection and response times vary based on location, site conditions, and other factors. Messages via satellite requires a carrier plan. SMS messaging via satellite is available on supported carriers. SMS message rates may apply. See [support.apple.com/kb/HT213885](https://support.apple.com/kb/HT213885) for more information.

(PRODUCT)RED: A portion of the proceeds from every (PRODUCT)RED purchase goes to the Global Fund to fight AIDS and to help fund critical health programs that save lives. See [apple.com/product-red](https://apple.com/product-red) for more information.

Crash Detection: iPhone 16 models can detect a severe car crash and call for help. Requires a cellular connection or Wi-Fi calling.

Cellular and Wireless: Data plan required. 5G is available in select markets and through select carriers. Speeds vary based on site conditions and carrier. For details on 5G support, contact your carrier and see [apple.com/iphone/cellular](https://apple.com/iphone/cellular).

Feature Availability: Some features may not be available for all countries or all areas.

iPhone 16 models have not been authorized as required by the rules of the Federal Communications Commission. These devices are not, and may not be, offered for sale or lease, or sold or leased, until authorization is obtained.
